**Subject: Follow-Up on Election Accuracy Day of Action and Request for Legislative Support**

Dear Representative [Last Name],

I am writing to follow up on the **Election Validity Advocacy Day** held on **Tuesday, February 25, 2025**, at Lawyers Mall in Annapolis. This event, organized by **Secure the Vote Maryland** and **United Sovereign Americans**, brought together a diverse group of citizens united in our commitment to securing Maryland's electoral process.

During the rally, we advocated for several key reforms aimed at ensuring secure and transparent elections:

- **Secure the 2026 midterm election:** Address issues and vulnerabilities in our election system clearly outlined in our Maryland Scorecard which violate the Constitutional right of the American people to choose their representatives.
- **Implementation of Voter ID and Signature Verification:** 67% of Marylanders support the introduction of voter ID requirements to enhance the legitimacy of our elections.
- **Opposition to Ranked Choice Voting:** Concerns were raised that this voting system may lead to voter confusion and undermine confidence in election outcomes.
- **Promotion of Decentralized Election Processes with Minimal Reliance on Technology:** Reduce dependence on technology to mitigate vulnerabilities and enhance the security of our elections.
- **Only Citizen Vote:** Non-citizens may unintentionally jeopardize their path to citizenship due to confusion over their rights. Our U.S. Constitution clearly states voting is the exclusive right and responsibility of citizens.

The event underscored the urgency of these reforms, reflecting the collective voice of Marylanders who are deeply invested in the integrity of our democratic processes.

As our state representative, your leadership is crucial in translating these concerns into actionable legislative measures. I respectfully request your support in:

1. Sponsoring or endorsing legislation that mandates voter ID and signature verification for all ballots. **Vote YES on HB0115, HB0091, HB067, SB838.**
2. Opposing the adoption of ranked choice voting in Maryland. **Vote NO on SB0383/HB0215.**
3. Advocating for election procedures that prioritize decentralization and limit reliance on potentially vulnerable technologies.
4. Sponsoring or endorsing legislation that mandates only citizens voting in our elections. **Vote YES on HB680.**

Your commitment to these issues will significantly contribute to restoring and maintaining public trust in our electoral system.

Thank you for your attention to this pressing issue and for your continued service to our community.

Sincerely,

[Your Name]
