### Marylanders Deserve Accurate Elections

This report card provides citizens with scientifically developed data illustrating Maryland Voter Registration Database and other voting irregularities.

It objectively shows that the Maryland Board of Elections has failed to properly manage the electoral process and related voting systems.

This "failing" report card is a clarion call for Maryland citizens to take immediate action by going to our new website and signing our petition, which will be presented to state legislators, to fix our elections process.

Confidence in our elections can only be achieved when the voting process accurately reflects the will of the people.

### Maryland Election Integrity LLC

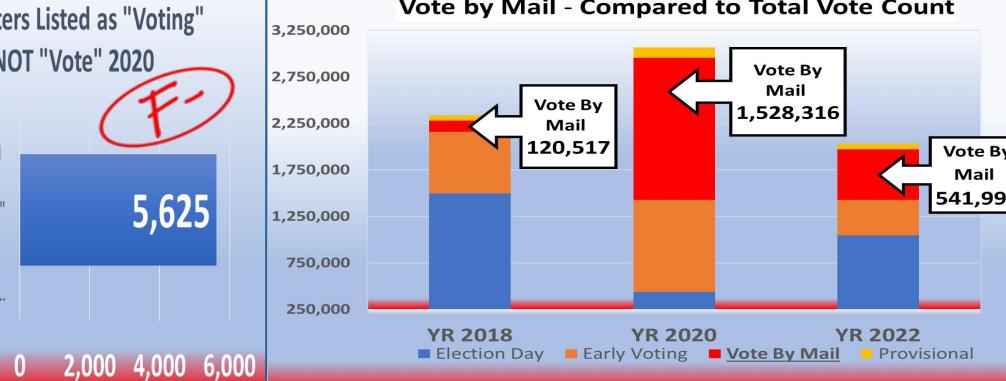

\*Maryland Annotated Code, Election Law Article, Title 3; 3-102; §§3-301-3-306. Federal Law only allows for 24 Votes in Error for the 2020 election and 16 Votes in Error for 2022 (based on Official Turnout of 3,066,945 and 2,031,635 in 2020 and 2022 respectively). Help America Vote

### Registered Voters Listed as "Voting" But DID NOT "Vote" 2020

**F-**

5,625

Extrapolated using the well defined statistical method and results described in the "Maryland Cross State Canvass" section. The 5,625 results represents 5% of the 112,506 registered voters with a 98%...
